*"If you truly love nature, you will find beauty everywhere."*  
- Vincent Van Gogh

The colours of nature are truly defined with the variety of birds that paint the world around us. These beautiful passerines can bring serenity into our lives through their gliding and flapping interspersed with a variety of musical notes. However, over the past few decades human activities are causing much havoc in the delicately balanced nature.

It has been a constant endeavor of DPS Gandhinagar to impart various life lessons to the children and help them become better human beings. On the occasion of Van Mahotsav that is celebrated pan Indian, in the first week of July, we organized an Art & Craft Competition with the theme **"Save Birds"** for Classes 6 to 8.

The purpose of organizing this competition was to help the child enhance their creativity with artistic ideas towards nature and contribute towards saving the endangered bird species. Around 67 students participated in this competition and they prepared an artificial home for birds using different kinds of materials as coconut shells, paper, dry grass, thread etc.
