

DELHI PUBLIC SCHOOL, GANDHINAGAR

Academic session 2021-22

Event Report

Title: ' I Know My Senses Week'	Date: 22.11.21 to 26.11.21
Class: UKG	Venue: Online Classes

Sensory play makes learning hands-on fun for young children, as they explore and discover more about the world through their senses!

Keeping this thought in mind, UKG students of Delhi Public School, Gandhinagar celebrated 'I know my Senses Week' from 22nd November, 2021 to 26th November, 2021. This week was conducted on a virtual platform. During this whole week children were introduced to all the different sensory based activities. The main purpose behind celebrating this week was to involve and stimulate all the senses. The activities were planned in such a way that it builds observational skills and encourages experimentation. Initially, general discussion was done with children to test their knowledge about sense organs. From the second day onwards each day was dedicated to each sense organ. Children were asked to perform different activities to understand the functions of each sense organ. Celebrating this week gave them the opportunity to facilitate exploration and encouraged them to use all five sense organs while they play, create, investigate, and explore.
