

**DELHI PUBLIC SCHOOL, GANDHINAGAR**  
**Academic session 2020-21**  
**Event Report**

**Title: Activities conducted in the month of August**

**Date: 1<sup>st</sup> August to 31<sup>st</sup> August 20**

**Venue: Online Virtual Classroom**

**Class: Pre Primary all sections**

Research shows that children who are taught using hands-on teaching methods do better in school. Hence the teachers of Delhi Public School Gandhinagar planned out different activities for the students of Pre-primary that are fun and engaging. Activities like recognize the vyanjan, making alphabets with clay, name collage, number mats, story narration and kids kitchenette activity were conducted through online classes during the month of August, 2020. These activities helped them in developing their hand – eye coordination, increase concentration, develop a sense of achievement, and made them familiar with alphabets, hindi letters and numbers. The story narration done through puppets and voice modulation kept the children glued on the screen, the live characters helped them to understand the story better. The students of Nursery class enriched their culinary creativity by making coconut laddoos in Kitchenette activity. They learned the different names of the ingredients used for making laddoos .This activity helped them to follow the steps instructed by the teacher. The mixing and molding of laddoos enhanced their finer motor skills. Children participated in the activity with great enthusiasm. They developed their gustatory skills through this activity. They learned about healthy eating habits and nutrition .The importance of washing hands before and after cooking was also explained. After the completion of the activity, children relished eating the yummy laddoos. Students really enjoyed making the treats. All the above activities were very fruitful.
