

DELHI PUBLIC SCHOOL, GANDHINAGAR

Academic session 2020-21

Title: Red Day

Date: 02/07/20

Venue: Zoom Platform

Time- 5.00p.m -7.30p.m

About the Event

Delhi Public School Gandhinagar organized a virtual session for the students of Nursery on the occasion of Red Day Celebration.

Objective of the Event

The main objective was to learn to identify colours which will help them to create the cognitive link between visual clues and words.

The Event

Our world is made up of different colours. Children begin to learn about colours at an early age. Their ability to identify colours is considered to be a milestone in their cognitive development. Therefore, engaging with children and helping them learn about colours is very essential.

Hence 'Red Day' was celebrated for the students of Nursery on 2nd of July 2020. But this time with a different approach as we celebrated this day on virtual screen. Our tiny tots were invited to join the Red Day Celebration by sending an E- Invitation. To mark this day very special, students and teachers were dressed up in red. The screen popped up with cute faces and stunning red outfits. To emphasise on the significance of red colour the background of the OVC class was nicely decorated using all the red objects. Teacher made the session interactive by discussing about the objects placed. Each child spoke few sentences on the objects given to them by their Parents. Students enjoyed doing different activities like Q-tip printing on a cherry, singing songs and rhymes, watching videos and listening to a story named Journey of a Tomato.

Different shades of Red made the environment lively and cheerful. It was a glorious day with lots of fun and learning.
