**Academic session 2019-20**  
**Event Report**

<b>Title: Paper Flower Making Activity</b>	<b>Date: 07/09/19</b>
<b>Venue: Respective Classrooms</b>	<b>Class: I (A-G)</b>

*'Being creative is not a hobby, it is a way of life.'*

**About the Event**

Art and Craft is a foundation subject in the National curriculum. As a learning activity, Art and Craft have traditionally been passed over in favour of more academic pursuits. It not only allows the students to explore ideas and concepts but also develops their fine motor skills. With an aim to break the monotony and enhance creativity of children, a 'Paper Flower Making Activity' was organised by Delhi Public School, Gandhinagar on 7 September 2019 for the students of Class-I.

**Objective of the Event**

- To develop student's fine motor skills.
- To develop creativity and imagination.
- To increase their critical awareness of the roles and purposes of Art and Craft.
- To foster appreciation of visual arts.

**The Event and Participation**

The students of Class-I were taught to make flowers in the class by the teachers. In this activity students used their innovative ideas to make beautiful flowers with different coloured papers. For some students this activity was a chance to make their masterpiece and for some it was puzzling. It was really very enthusiastic to see our emerging artists making colourful flowers with all the passion and energy. As soon as the budding artists started giving shape to their creation, the hearts of everyone started dancing with the beautiful flowers and the classrooms transformed into beautiful gardens. This activity was a welcome change for everyone.
