The Event and participation

The Competition inspired the young mathematicians to come forward and evaluate their knowledge within academics as well as beyond academics with the help of their props. Some of them dressed up as per the topics given and presented it well. The concepts explained by them using different models and charts were outstanding. While some models gave the audience importance of time, some reinforced concept of tens and ones and some had the audience to look around related shapes and patterns formed. The 'Mathalon' was adjudged on the basis of concept, props, real-life connectivity and overall presentation of the participants. It was an opportunity for them to gain confidence.
