

## DELHI PUBLIC SCHOOL, GANDHINAGAR

Academic session 2021-22

### Event Report

Title: Puzzle Making Event	Date: 1 <sup>st</sup> November' 21
Classes : Nursery	Venue: Online Classes

Puzzles are good for brain. Children refine their fine motor and hand-eye coordination skills as they manipulate puzzle pieces to put them together.

Delhi public school Gandhinagar celebrated “**Puzzle Making Event**” for tiny tots of Nursery on 1<sup>st</sup> of November. Different animal puzzle sheets were given to solve within one minute of time. Our toddler’s chubby hands grasp at puzzle pieces and tried to put them together. The act of putting the pieces of a puzzle together requires concentration and improves short-term memory with problem solving skills. By celebrating this event children sparked imagination and increased their creativity and productivity.
