

DELHI PUBLIC SCHOOL, GANDHINAGAR

Academic session 2020-21

Event Report

Title: Safety Week	Date: 21st to 26th September
Venue: OVC	Class: UKG

We all understand the importance of safety. Parents and teachers go that extra mile to ensure that children in their care are safe. However, it is important for students to socialise and to have a certain level of freedom to grow and develop independence. Constantly keeping your eyes on them is not possible all the time. Teaching children to manage their own safety is our focus and hence, Delhi Public School Gandhinagar conducted virtual safety week for the students of U.K.G from 21st September to 26th September '20. The main aim of safety education was to provide necessary warns and precautions so that possible accidents can be prevented. They were educated with a series of instructions and warnings that gave them awareness about possible harms and injuries. The week was divided into six days. Students were taught different safety rules on each day, like

- Safety at home
- Safety on road
- Safety during COVID19
- Good touch and bad touch
- Safety at park
- Session by Doctors

Children were explained the importance of safety rules through videos, PPT, storytelling session, quiz, art and craft activities and different worksheets. The week ended with a session on safety during Covid 19 which was conducted for parents and children.

DPS Gandhinagar is blessed with great parents who always give their best contribution for the betterment of our children. We feel honoured to have Dr.Kirankumar M.Varmora and Dr. Narayan Gaonkar who took initiative and arranged an informative session on “Safety during COVID 19”

The informative safety week will definitely help our students to become more aware of how they can protect themselves when we are not around.
