<b>Title: Science Experiment Day</b>	<b>Date:1/7/2025</b>
<b>Venue: Audio – Video Room</b>	<b>Class: Nursery</b>

***Science is like magic, but real!***

Delhi Public School organized a vibrant and educational Science Experiment Day in the AV Room on July 1, 2025, which was beautifully decorated to resemble a real science laboratory. The event aimed to ignite scientific curiosity and encourage hands-on learning among students.

Children participated with great enthusiasm and zeal, excited to explore the wonders of science. The highlight of the event was the presence of the teacher, creatively dressed as a scientist, who demonstrated a series of engaging and child-friendly experiments. These fun yet educational activities captivated the young minds and made learning enjoyable.

In addition to the demonstrations, students were also allowed to perform the same experiments under the careful supervision of the teacher. This hands-on experience not only enhanced their understanding of scientific concepts but also boosted their confidence and interest in the subject.

The day was filled with laughter, learning, and discovery, leaving the students with fond memories and a greater appreciation for science. Science Experiment Day was truly a successful initiative that combined education with excitement, fostering a love for exploration among young learners.
