

DELHI PUBLIC SCHOOL GANDHINAGAR
Academic Session 2026-27
Event Report

Title: Investigatory Project Report	Date: 25/03/2026
Venue: School Auditorium	Class: XI (2025-26)

The students of Class XI (2025-26) of Delhi Public School, Gandhinagar, successfully organised and presented their investigatory projects on 25 March 2026 in the school auditorium. The event marked a significant academic milestone, reflecting the dedication, intellectual curiosity, and collaborative spirit of the students. Conducted under the able guidance of their teachers, the projects were the culmination of extensive research, careful experimentation, and thoughtful analysis.

The presentations encompassed a wide range of subjects, including Chemistry, Physics, Biology, Mathematics, and English. Each project was a testament to the students' commitment to exploring concepts beyond the prescribed curriculum. In Chemistry and Physics, students demonstrated scientific principles through practical applications and experimental models, showcasing both precision and innovation. The Biology project highlighted an in-depth understanding of living systems and environmental awareness, while the Mathematics presentation reflected logical reasoning and problem-solving acumen. The English project, on the other hand, displayed creativity, eloquence, and a strong command of language through well-structured analyses and expressive presentations.

The programme was graced by the esteemed presence of the Principal, Ms. Anju Singh, whose encouragement and appreciation added great value to the occasion. In her address, she commended the students for their hard work, originality, and confident articulation of ideas. She also acknowledged the relentless efforts of the teachers, whose mentorship played a pivotal role in guiding the students throughout the investigatory process.

The event was meticulously organised, with each presentation reflecting clarity of thought and effective communication. Students confidently explained their topics, responded to queries, and demonstrated a thorough understanding of their respective subjects. The atmosphere in the auditorium was vibrant and intellectually stimulating, fostering a spirit of inquiry and learning. Overall, the investigatory project presentation proved to be an enriching and rewarding experience for all participants.

GLIMPSES OF THE EVENT
