Title: “Physics Mystery Box – INNOVITA: Unbox. Explore. Innovate!”	Date: 04/07/2026
Venue: Physics Laboratory	Class: XI & XII

“The important thing is not to stop questioning. Curiosity has its own reason for existing.”

To promote scientific inquiry, critical thinking, teamwork, and the practical application of Physics concepts, the Science Department of DPS Gandhinagar organized an Inter-House competition titled “Physics Mystery Box – INNOVITA: Unbox. Explore. Innovate!” on 04 July 2026 for the students of Classes XI and XII.

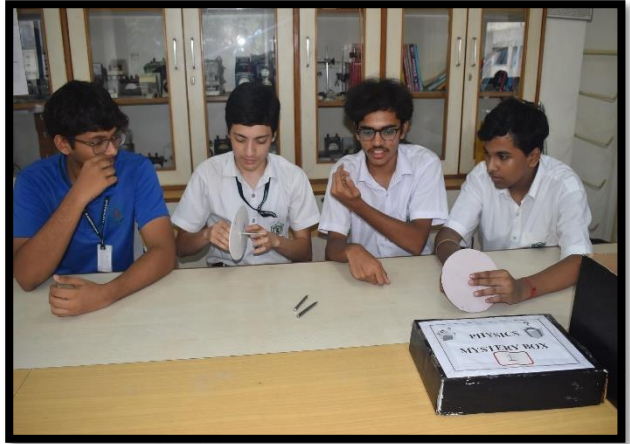

The competition was designed to provide students with an exciting hands-on learning experience, where each participating House selected a sealed Mystery Box through a random draw of lots. Each box contained Physics laboratory equipment and experimental materials that remained unknown to the participants until the event commenced.

Working collaboratively within the allotted time, students identified the apparatus, planned and conducted an appropriate experiment, and explained the scientific principles demonstrated through it. The challenge encouraged participants to think analytically, apply theoretical knowledge to practical situations, and communicate scientific concepts with clarity and confidence.

The event witnessed enthusiastic participation from all the Houses. Students displayed remarkable teamwork, problem-solving skills, scientific temperament, and effective presentation skills while responding confidently during the viva voce session. The activity transformed the laboratory into a vibrant learning environment where curiosity met innovation and experimentation.

The competition successfully reinforced conceptual understanding while nurturing creativity, collaborative learning, and scientific reasoning among students. It inspired young learners to explore Physics beyond textbooks and appreciate the significance of experimentation in understanding the world around them.
