<b>Title: Rainbow Day</b>	<b>Date: 02.09.2023</b>
<b>Venue: Audio Visual Room and Classrooms</b>	<b>Class: Nursery</b>

*"Every child is a different colour of flower and altogether makes this world a beautiful garden."*

Nursery students of Delhi Public School, Gandhinagar celebrated 'Rainbow Day' on September 2, 2023. To celebrate the day, the audio-visual room was decorated with a rainbow colour theme and balloons. Students also came dressed up in rainbow-coloured outfits and enjoyed the group activity of tearing, crumpling, and pasting small pieces of paper on a rainbow prepared on the chart by the teacher. This activity was conducted to reinforce the colour concept, development of fine motor skills, and eye-hand coordination of the children. Animated rhymes and science experiments were also shown to the children about how a rainbow is formed. It was indeed a fun-filled day for the little toddlers as they were completely engaged in a play way and practical learning.
