Have you seen a UFO

Betty, Colby and Vickie have.

It was about 9 pm. Betty Cash, Vickie Landrum and Vickie's grandson, Colby were returning home to Dayton, Texas on Monday, 20 December 1980 after shopping in a neighbouring town. There was no other vehicle on the highway through the piney woods. Suddenly they saw a very bright light and a large diamond-shaped object appeared on the sky just ahead of them. It appeared as if it would land on the highway.

Vickie tried to drive fast so that the object would land after their car had crossed its path. However, she had to stop because the object descended low (about 7 meters high from the ground) and hovered ahead of them. Periodic flames shot out from the underside of the object like the fiery blast from a rocket. It radiated intense heat. The bright light lit the whole forest on both sides of the highway. They knew the car would melt if they tried to drive from under it.

Vickie stopped the car and got out to examine the object. Almost immediately the sky was filled with over 20 small-sized helicopters. They were trying to encircle the object. The object quickly rose and darted southwest. The helicopters followed it.

When Vickie returned to the car, she could not touch the door. It was so hot. She used her coat sleeve to open it. When she got in, the dashboard was so hot that when she touched it, it left a mark on her hand. All connected to exposure to radiation. This incident has left many questions unanswered: What was that object? Was it a UFO (Unidentified Flying Object)? Did it belong to aliens from outer space? What were they doing on our earth? Where did the helicopters come from? ... and many more.
