

DELHI PUBLIC SCHOOL GANDHINAGAR

Academic Session 2025-26

Event Report

Title: Shape Parade Day	Date: 23.4.25
Venue: A.V. Room & Outside area	Class: LKG

"Shapes are like puzzle pieces—when we put them together, we can create a colourful world!"

Shape Parade Day at Delhi Public School Gandhinagar, held on April 23, 2025, was an exciting and educational event where our little ones showcased their creativity and understanding of geometric shapes. The event aimed to make learning about shapes fun and interactive, encouraging both artistic expression and public speaking. Students participated by carrying shape cutouts, using props, or dressing up as different geometric shapes. Each student had the chance to speak a few lines about their chosen shape, sharing interesting facts about its properties, real-life examples, and unique features. The event featured a vibrant shape parade, with students proudly displaying their colorful outfits and props. Engaging presentations highlighted the significance of each shape, while interactive activities reinforced shape concepts through fun shape-sorting games and identification exercises. The event saw diverse participation, with creative costumes representing cubes, spheres, triangles, and rectangles.

Shape Parade Day was a resounding success, blending education with creativity and fun. It fostered confidence, teamwork, and a love for learning through creative expression.
