Event Report

Title: Poster Making: “Conservation of Resources”	Date: 20/04/2026
Venue: Classrooms	Class: VIII

"We do not inherit the Earth from our ancestors; we borrow it from our children"

The Social Science Department of Delhi Public School, Gandhinagar, organised an intra-class activity titled *Poster Making: “Conservation of Resources”* for Class VIII on 20 April 2026. The objective of the activity was to deepen students’ understanding of the value of the natural bounty of our planet and the imperative need to conserve it.

The activity proved to be more than just an art exercise. Students developed a deeper understanding of renewable and non-renewable resources, the impact of overconsumption, and practical measures such as the 3Rs- Reduce, Reuse, and Recycle. The event effectively inspired Class VIII learners to become responsible citizens who not only speak about conservation but also practise it in their daily lives.

The learning outcomes included enhanced environmental awareness, critical thinking about sustainable lifestyles, and improved communication skills, as participants explained their concepts to peers and teachers. The participants demonstrated commendable enthusiasm throughout the activity, and their work was appreciated by the teachers for its impeccable presentation, originality, and meaningful representation of the theme.

The activity successfully integrated learning with creativity, allowing students to explore the subject in an innovative and enjoyable manner, while strengthening their conceptual understanding and, most importantly, encouraging them to apply this learning in their own lives and inspire others to contribute towards a more sustainable world.
