

DELHI PUBLIC SCHOOL GANDHINAGAR

Academic Session 2025-26

Event Report

Title: "FRACTION BINGO – MATHEMATICS ACTIVITY"	Date: 07-11-2025
Venue: Classrooms	Class: III (A to G)

About the Event

The Mathematics Fraction Bingo activity for Class III was conducted on November 7, 2025, with great enthusiasm and active participation from the students. The activity was designed to make learning fractions enjoyable and interactive.

Objectives:

- ♠ Recognize common fractions such as $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$, and $\frac{2}{3}$.
- ♠ Match shaded shapes with the correct fraction
- ♠ Encourage peer interaction and joyful learning

The Event & Participation

To make the concept of fractions more exciting and easier to grasp, a Math Activity – “Fraction Bingo” was organized for Class III on November 7, 2025. The activity aimed to blend creativity with learning while helping students understand fractions through fun-filled tasks.

The session began with an interactive discussion where students shared real-life examples of fractions, such as dividing fruits, pizzas, or chocolates into equal parts. Following this, the young learners coloured different fractions like $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$, and $\frac{2}{3}$ beautifully in their scrapbooks, showcasing their creativity and understanding.

The activity helped students recognize fractions as parts of a whole, develop quick thinking and observation skills, and learn through peer interaction. It was a perfect blend of fun and learning, making the topic of fractions both enjoyable and meaningful.

Some highlights and winners of 'Fraction Bingo' Mathematics Activity.
