<b>Title: Model Making on Auxiliaries to Trade</b>	<b>Date: 04/07/2026</b>
<b>Venue: Multimedia Room</b>	<b>Class: XI Commerce</b>

*“Sales go up and down, service stays forever”*

Delhi Public School, Gandhinagar organized a Co-Curricular Activity (CCA) Competition on 04 July 2026, for grade XI commerce students, on the topic **“Model Making On Auxiliaries To Trade”** as part of its ongoing efforts to promote experiential learning and academic excellence. The event provided students with an opportunity to enhance their research, presentation, and communication skills while gaining a deeper understanding of key Business Studies concepts.

Students enthusiastically participated by preparing well-researched and informative PowerPoint presentations and 3D models covering various auxiliaries to trade, including transportation, warehousing, banking, insurance, advertising, and communication. Their presentations reflected extensive research, the use of authentic sources, real-life business examples, current industry trends, and effective visual aids, demonstrating both conceptual clarity and creativity.

Participants confidently presented their findings before the judges, Ms. Arny Joy and Ms. Meeta Chandwani, explaining the role of auxiliaries in facilitating trade and ensuring the smooth functioning of business activities. The presentations were evaluated on parameters such as model making creativity, knowledge of selected auxiliary to trade, clarity of explanation, presentation.

The competition significantly enhanced students' critical thinking, public speaking, digital literacy, and analytical abilities while encouraging them to apply theoretical knowledge to practical business scenarios. It also fostered confidence and group learning through research-based presentations.

Overall, the competition was an enriching learning experience that successfully integrated academic knowledge with research, creativity, and effective communication. It reinforced the significance of co-curricular activities in developing well-rounded learners equipped with essential skills for future academic and professional pursuits.
