"Democracy is not just the right to vote; it is the right to live in dignity."

- Naomi Klein

As part of an experiential learning initiative, the Social Science Department of Delhi Public School, Gandhinagar, conducted a Mock Election for the students of Standard VIII on 2 September 2026 to help them understand the democratic and electoral process in India.

Students were given the opportunity to form political parties, complete the prescribed registration process and campaign responsibly. A teacher took on the role of the Chief Election Commissioner and selected four parties based on their adherence to the registration and campaigning guidelines. The parties presented their manifestos and campaigned among their peers, encouraging students to understand issues, evaluate ideas and make informed choices.

The voting process was conducted using mock Electronic Voting Machine (EVM) software in the Class VIII Teachers' Staffroom. Student volunteers served as Presiding Officers, verifying identity cards and names against the student list before allowing eligible students to vote. Students were also inked on their fingers to recreate the experience of participating in an election.

The Principal, Academic Coordinators and teachers also participated in the mock voting, adding further significance to the activity.

The Mock Election was a meaningful and engaging learning experience, giving students practical exposure to political parties, manifestos, campaigning, voter verification, EVM-based voting and electoral responsibility. It reinforced the idea that democracy is not merely a concept in textbooks, but a system in which every individual has a role to play.
