<b>Title: Video Making on Matrices</b>	<b>Date: 04/04/2026</b>
<b>Venue: Multimedia Room</b>	<b>Class: XII</b>

*“Mathematics is not about numbers, equations, computations, or algorithms; it is about understanding.”*

The Mathematics Department of Delhi Public School, Gandhinagar, organized an intellectually stimulating “Matrices” Competition on 04 April 2026. The event was designed to highlight the practical relevance of mathematical concepts while nurturing analytical thinking, creativity, and precision among students.

The competition witnessed enthusiastic participation, with students actively engaging in tasks such as performing matrix operations, verifying properties, and applying matrices to solve systems of equations. A distinctive feature of the event was the video-making component, where participants creatively showcased mathematical concepts through visual presentations, adding depth and innovation to their understanding.

The competition not only fostered a spirit of healthy academic rivalry but also encouraged collaboration, critical thinking, and effective problem-solving. Students demonstrated commendable clarity of concepts and confidence in applying their knowledge to varied challenges.

Overall, the event served as a valuable platform for experiential learning, reinforcing the idea that Mathematics is not merely theoretical but a dynamic and applicable discipline. It successfully combined knowledge with creativity, leaving students motivated and inspired to explore the subject further.
