

DELHI PUBLIC SCHOOL GANDHINAGAR

Academic Session 2025-26

Event Report

Title: Space Exploration Week	Date: 04.08.25 & 08.08.25
Venue: A.V. Room	Class: UKG

“A week among planets, memories for a lifetime.”

Our UKG kids at Delhi Public School, Gandhinagar, embarked on an exciting journey beyond the stars from **August 4 to August 8, 2025**, during *Space Exploration Week* — a celebration where imagination soared, curiosity bloomed, and little astronauts explored the mysteries of space through a series of engaging, fun-filled activities. The week began with “**Sky Above Us**”, an exciting introduction to the wonders of space. This was followed by “**Quiz Time**”, where children participated in a fun and age-appropriate quiz session. To honour their enthusiasm, each child proudly received a special “*Little Astronaut – Well done!!*” badge. Next came “**Alien Day**”, where the AV Room transformed into a playful galaxy. Our little stars arrived dressed as adorable aliens, complete with antennas and glittery costumes. Then, on “**Space Dance Day**”, our young explorers grooved to the rhythm of space-themed music, filling the room with energy and joy. The week concluded with a cozy **Movie Time**, providing the perfect ending to this magical experience. To celebrate their active participation, every child received a beautifully designed *space-themed flipper* placed in their almanac — a sweet keepsake and reminder of their cosmic adventure. *Space Exploration Week* sparked wonder, learning, and laughter among our little stars. It wasn't just a celebration — it was truly a journey to infinity and beyond!
