

DELHI PUBLIC SCHOOL GANDHINAGAR
Academic Session 2022-23
Event Report

Title: Scientific Heritage of Sanskrit	Date: 19-11-22
Venue: DPS Gandhinagar	Class: X

“Sanskrit language, has been universally recognized by those competent to form a judgement, as one of the most magnificent, the most perfect, the most prominent and wonderfully sufficient literary instruments developed by the human mind.” -Sri Aurobindo

Delhi Public School Gandhinagar organised a Chart Making Activity on the topic ‘**Science in Sanskrit**’ for the students of Class-10 on November 19, 2022 with an objective of giving a glimpse into the ancient scientific heritage of Sanskrit.

The history of Indian Science is closely linked with the origin of the Vedic texts. According to one view, Vedas not only contain some illuminating truths of scientific knowledge but also contain the truths that Physical Science has discovered in the modern times. Sanskrit is a treasure of knowledge which contains all the branches of learning.

Students participated enthusiastically and showed keen interest in making creative charts on ‘Science in Sanskrit’.
