

DELHI PUBLIC SCHOOL GANDHINAGAR
Academic Session 2024-25
Event Report

Title: Poster design on folk dances of India	Date: 05/10/2024
Venue: Classrooms	Class: VI

The Computer Science Department of Delhi Public School Gandhinagar had organized an engaging and creative activity for the students of Class 6, focusing on poster design using MS Word and decorating with various materials during CCA period. This event aimed to enhance students' technical skills and creativity by integrating digital and visual art. They used materials such as glitter, stickers, colored paper, and ribbons to enhance their posters, adding a tactile element to their digital creations.

The poster design activity was a resounding success, with students showcasing remarkable creativity and technical skills. The event not only helped students become more proficient in using MS Word but also encouraged them to think about important environmental issues and how to communicate them effectively through art. The combination of digital and physical elements made the learning process enjoyable and memorable.

Here are the glimpses of the event:
