“The only way to discover the limits of the possible is to go beyond them into the impossible.” –Arthur C. Clarke

Entrepreneurship Development Institute of India (EDII), an acknowledged National Resource Institute for Entrepreneurship Education, Research, Training, and Institution Building, has been catering to the entrepreneurial need of the country and beyond for the last 40 years. EDII celebrated “National Entrepreneurs’ Day” on November 9, 2022, at their Ahmedabad Campus.

With a belief that the seed of entrepreneurship should be germinated at an early age, they invited students from different schools to present their “Best Innovative Ideas”.

Students from DPS Gandhinagar participated with great enthusiasm and 4 students/teams were registered in the competition.

Kahaan Shah (9G) and Luv Kankeria (9E) won the position of “Top 3 Innovative Ideas” on their idea *Project Nikolam SSS*- an environment friendly Car that runs on Artificial Intelligence. Lakkshya Jha (11B) got a special mention in the “Top 12 Innovative Ideas” category for his idea *Liquid Lenses*. The students were awarded with certificates and the school was felicitated with a trophy for encouraging innovation and entrepreneurship among the students.

There were more than 10 schools across Ahmedabad that participated in the event and the students of DPS Gandhinagar showcased exemplary talent and skill.
