

**The whole purpose of education is to turn mirrors into windows**

**Sydney J. Harris**

A school plays a crucial role in shaping a child's future. Not only does this include the provision of education and ensuring learning, but moulding the character, morals, and value system of the child as well. A school provides the foundation needed to view the world as a limitless space providing innumerable opportunities to shine.

We, at DPSG, strive to provide education that explores, challenges, and grooms every aspect of the child's personality. While we are determined to provide seamless learning targeted towards excellent academic performance through the incorporation of the latest teaching approaches, we also ensure that we are actively working on the physical, social, emotional, and spiritual training of our children. We believe that all children can learn and commit to nurturing the potential in each child. We focus on contextual learning based on a constructivist theory of teaching & learning to provide techniques such as problem-solving, learning by doing & inquiry-based learning activities. Our teachers help students to test their ideas, draw conclusions & interference in a collaborative learning environment which transforms the students to become active participants in the learning process.

Our teachers are professionally equipped to develop adapt and modify curriculum content, pedagogy & assessment which suit the needs and aspirations of our students. We work towards a holistic, experiential, integrated, student-centered educational system that helps to improve the creativity, critical thinking, and problem-solving skills of our young learners to equip them for the ever-changing employment dynamics and global ecosystems. We educate our children to change the world through peace, empathy, and fraternity and place great emphasis on inner values.

During the pandemic, we shifted towards soft technology, online webinars, and virtual classrooms. There was an unimaginable collaboration among all the stakeholders in the field of education including administration, teachers, students and parents for the transfer of knowledge in innovative ways. In this time of crisis, we are focused on a well-rounded and effective educational practice needed for the capacity-building of our children. It will develop skills that will drive their employability, productivity, health, and well-being in the decades to come, and ensure the overall progress of India.

Our sincere gratitude to all the stakeholders of DPS i.e. the management, staff, parents, and students for keeping your trust and belief in the school. We will continue with the spirit of inculcating ethics & ethos in young minds with aplomb and dedication even during this tough time.

We look forward to working together to support every child to fulfill the school motto: "Service Before Self". Wishing all our children a happy and successful journey of learning!
